

A **FREE** Program Offered In Partnership with the Carmichael Creek Neighborhood Association

Want to improve your landscape but don't know where to begin?

Blue Thumb Neighbors is for You!

This FREE program will teach participants:

- Ideas for creating your ideal outdoor living space that looks great and is also sustainable
- Ways to improve irrigation to reduce waste and ensure plants get the right amount of water they need
- How to select beautiful flowers, trees and plants that are specially suited to thrive in the Sacramento region
- Methods for maintaining your landscape with fewer fertilizers and pesticides for a healthier environment for you and your family

Blue Thumb Neighbors includes:

- An at-home consultation on landscape water efficiency (August-September)
- Three fun classroom-style workshops taught by landscape and irrigation experts (Tuesdays, September 11, 18, 25, from 6:30-8:30 p.m. at Deterding Elementary School, Multipurpose Room, 6000 Stanley Ave.)
- One hands-on workshop at a participant's home during which volunteers will transform two areas of the front yard (Saturday, October 13, 9 a.m. to noon)

Whether you want to make changes yourself or work with a professional, Blue Thumb Neighbors will provide ideas, inspiration and knowledge for creating your dream landscape.

Two participants will win weather-based "smart" irrigation controllers donated by Rain Bird and Hunter!

Learn more by contacting Christine Kohn, Blue Thumb Neighbors Program Coordinator, at (916) 944-1631 or ckohn@INcommunications.biz.

Blue Thumb Neighbors is sponsored by the Regional Water Authority and Carmichael Water District
