Any projects that exceed previous fiscal year, will be required to pay the rates that apply for current year. Permit is valid for six (6) months. Water use fees to be paid at time of completion/renewal. **Minimum of one (1) month service charge.**

CARMICHAEL WATER DISTRICT FIRE HYDRANT PERMIT CONDITIONS

1. It is understood and agreed to by the Permittee that all conditions have been read and understood. The Permittee agrees to comply with all conditions.
2. This permit or a complete copy shall be kept at the job site and upon request must be shown to any representative of the District.
3. The application for a permit shall require a deposit of \$1,750 for District equipment. The deposit shall not accrue interest.
4. This permit is valid for six (6) months from the date of issuance. In order to continue to obtain water through a fire hydrant, the Permittee must schedule an inspection of the meter/backflow unit and an intermediate meter reading and apply for reissuance of the permit. All application fees must be paid in full prior to reissuance of permit.
5. Upon completion of use/ permit expiration the Permittee shall return the equipment to the District for final reading and inspection. The District shall determine if additional monies or a refund is due, and collect the amount or process a refund. If a refund is owed, a check will be prepared and mailed to the Permittee.
6. Permittee must not alter the meter in any way. Lost, stolen or damaged meter and associated equipment must be reported immediately to the District, and the Permittee will compensate the District for all costs of repairing or replacing any damaged equipment. The deposit will be used toward resolution of damage or loss of equipment.
7. Permittee shall under no circumstances transport water out of District boundaries for any reason.
8. Improper operation of fire hydrants can cause severe damage to the District's water system and surrounding property. By renting and using a hydrant meter, Permittee agrees to fully compensate the District and any other party for all damages arising from or related to Permittee's use of the hydrant.
9. Permittee shall operate the fire hydrants and hydrant meters properly, including but not limited to the following:
 - a. Fire hydrants must be opened and closed slowly to prevent water system damage.
 - b. Fire Hydrants may be operated only with a properly sized specialty hydrant wrench.
10. The District may discontinue use of water and recall hydrant meters at any time if water supplies are low or for violations of the permit conditions.
11. Permittee has sole responsibility for security of meters and associated equipment.
12. The District reserves the right not to issue a permit to any Contractor or other person who has misused a hydrant meter or fire hydrant, or has violated the terms and conditions of this Agreement.
13. Permittee assumes all risk in connection with use of the fire hydrant and/or hydrant meter. Permittee shall indemnify, defend, and hold harmless the Carmichael Water District and its elected officials, officers and employees, from all liabilities, obligations, orders, claims, actual damages, governmental fines or penalties, and expenses of defense (including attorneys' fees and costs) of any kind or nature that may be caused by or arise from the rental, use or misuse of the fire hydrant and/or hydrant meter and associated equipment, whether by Permittee or by anyone directly or indirectly employed or contracted with Permittee, and whether such liabilities, obligations, orders, claims, actual damages, governmental fines or penalties, and expenses of defense (including attorneys' fees and costs) shall accrue or be discovered before or after termination of this agreement.
